

# Anima

A MUSICAL ALCHEMY OF SACRED AND HEALING SOUNDS  
INSPIRED BY ANCIENT WISDOM AND THE AWAKENED HEART

Anima's deeply powerful and healing music reaches deep into the heart and soul. Blending rich tapestries of meditative soundscapes with ethereal, nurturing vocals and medicine songs. Weaving sacred sounds infused with a variety of world instruments and healing frequencies, the music gently guides the listener towards deep states of meditation, healing, inner journeying, relaxation and connection with the Sacred.

Anima is a UK based duo comprising of producer/ composer/ instrumentalist Ali Calderwood and vocalist/ songwriter Daniela Broder. Ali and Daniela have both lived and trained with indigenous elders and teachers, studying ancient ways of ceremony, spirit medicine, yoga and the use of sacred sound.

As independent artists and a duo, Anima have forged an engaging new style of world new age sacred music. Through exquisitely crafted recordings, Anima weave alluring tapestries of sound and vibration that touch the heart and soul, moving the listener into deep states of stillness, peace and presence. In concert, a sacred space is created where the healing forces of the Divine are often felt and experienced by those present.

Ali began producing music under the name Anima in 2004, releasing his debut album 'Celestial Baptism', and later, 'Star Ancestry'. The same year, Ali and Daniela met in Bath, Somerset and shared time in retreat in the mountains of Wales and Scotland. The following year while individually travelling in Mexico, they reconnected and began performing music together, and later while living in the Amazon of Peru and the Andes of Bolivia, recorded their first joint album 'Lemuria Emerging'.

Ali was drawn to music at an early age and through his sensitivity developed a unique style of sculpturing sounds that can gently re-awaken the soul's connection. His affinity with Nature called him to ancient spiritual places in the UK and around the world. Over the last 15 years he has been trained by different elders and shaman, undergoing various initiations into ancient indigenous traditions. Using the vehicle of sound and a profound perception, he facilitates deep healing spaces for others to remember, awaken and clear ~ reconnecting with the power of simplicity and love.

Daniela has been working with art, music and healing from an early age. She has journeyed for many years in mountains, forests and ancient sacred sites as well as training with a number of indigenous elders and mentors in yoga and the healing arts. Her work is dedicated to opening and reconnecting to the light of grace, and realigning with the essence of our being.

Anima are now based in the Highlands of Scotland, in a remote off-grid location surrounded by pure water, forest and mountains. As an extension of their choice to live in harmony with Nature, they have built their new music studio powered by renewable energy sources. 'Anima' means soul, breath, air, life force and feminine spirit energy. It is this sacred energy of the Divine that inspires their music, healing work and lives.

For more information on their work with music and healing as well as  
upcoming concerts, events, and retreats  
please visit their websites below:

*"Deeply Powerful; the gentle and melodious sounds created by Anima reach deep into the soul; to that special place within which often needs a reminder that all is there and all can be healed"*
